

Network Services

[PDF generated June 04 2026. For all recent updates please see the Nutanix Bible releases notes located at https://nutanixbible.com/release_notes.html. Disclaimer: Downloaded PDFs may not always contain the latest information.]

This book will cover the network security and virtual networking services provided by Nutanix.

- Flow Network Security
- Flow Virtual Networking

Here's an overview of each product with a bit of history just in case you've heard of these products by another name.

We released Nutanix Flow as a category and policy-based microsegmentation solution. The stateful, distributed, microsegmentation firewall formerly known as Flow is now called Flow Network Security.

For truly multi-tenant networking with overlapping IP addresses, self-service network provisioning, and more, Nutanix released Flow Networking, now called Flow Virtual Networking.

Navigate to Security Central under [Cloud Management](#) to find information on security planning, threat detection, and compliance monitoring.

The following sections will cover these in more detail.
